

Safe n Simple™ – eliminates moss mould and lichen.

Moss, mould and lichen will damage your roof!!

Here's how...

Concrete & clay roof tiles

1. By blocking the efficient flow of water down your roof tile channels.
2. It loosens mortar on ridge and hip cappings, causing leaks and associated damage and health affecting damp and mould.
3. It increases the porosity of concrete roof tiles, which increases the weight of your roof, placing stress on your roof's structure.
4. Leaking and porous roofs cause dampness and mould growth.
5. Spoils the appearance of your roof and home and reduces the value of your home.
6. Can become a safety hazard.

Stone chip tiles

1. By blocking the efficient flow of water down your roof tile channels.
2. Will loosen and lift chips on stone chip tile roofs, exposing it to rust attack.
3. Spoils the appearance of your roof and home and reduces the value of your home.
4. Can become a safety hazard.

Environmentally friendly Safe 'n' Simple™ moss eliminator is the solution!!

To remove harmful and unsightly moss, lichen and grime, our professional technicians apply our unique ROOFCARE moss elimination solution. Without harming your plants, guttering systems or paintwork, our unique solution will kill, loosen and through the natural cleansing action of rain remove moss and lichen over a 3 – 12 month period.

For heavy moss coverage, 2 applications within a 6 month period is advised
